

In My Heart

In my heart is where You're close to me
Feeling You where it's possible
In my heart, You will always be
Burning fire within my soul

Bring out the old, bring out a new tomorrow
I feel the joy being with You
Here by my side, You will always be
And in my heart You fly free

It's so easy to love and be loved by You
Things could go wrong, but I'd still feel brand new
Days turn to weeks, and weeks into years
Here in my heart is where You dwell

You bring to me the truth of love
Filling that empty world of mine
I'll share my life and my dreams with You
Here in my heart, cause I love You!
